Abrasive cloth - type 979

Abrasive grain	Zircon corundum
Bonding	Resin
Backing	Heavy polyester cloth, waterproof
Coating	Closed
Range of grits	P 36,40,60 – 100
Max. width of roll	1450 mm
Application	Endless belts, rolls, discs
Colour	Blue

type 979

GLOBUS ABRASIVES

INOX

Fe

The high quality abrasive cloth for extreme machine grinding of steel, high alloyed steel, stainless steel, aluminium, rubber, casting and wood. Suitable for wet grinding, too.

The backing material is heavy waterproof polyester cloth. The quality zircon corundum is electrostaticly coated into the special resin.

The closed coating ensures the efficiency by very heavy grinding.

The new technology considerably increases the abrasive efficiency and extends the life of abrasives.

It is suitable for the production of wide and narrow endless abrasive belts, roll, discs and flap discs.
